

## Queen's University Science '59 Entrance Award

Tom's graduating class established this entrance award. Four or five outstanding first-year engineering students in financial need are able to benefit from this fund each year.

Tom acknowledged that his own career began through a scholarship such as this one, which gave him the opportunity to attend Queen's University to study engineering. Just this spring, Tom heard that the Class of 1959 had created this fund and he decided to make a contribution. His family feels that it is fitting to honour Tom by donating to this fund at this time. Please join us and indicate that your gift is in memory of Tom Krogh.

Contributions may be made by phone, on-line or by mail:
